

Why “Under Construction” should be made illegal on the web

 devblogs.microsoft.com/oldnewthing/20040715-00

July 15, 2004

Raymond Chen

The site www.emr.fr has been “under construction” for over eight years. I noticed it in June 1996 and check back on it periodically. Still Under Construction.

Another site that I noticed as “Under Construction” in June 1996 is www.leary.com. And as of this writing, it is **still** under construction.
