

The publicity machine doesn't stop: TechNet podcast interview

 devblogs.microsoft.com/oldnewthing/20070202-20

February 2, 2007

Raymond Chen

The [TechNet Magazine Podcast page](#) has just posted their February 2007 entry, which includes an interview with little old me in the second half. I haven't listened to the whole interview yet, but what struck me immediately is that I was pretty darned punchy and goofy, whereas I think [the host](#) was trying to take a more serious tone. Oops.
