

# Searching for Evil: Spot the scam

---

 [devblogs.microsoft.com/oldnewthing/20090805-01](http://devblogs.microsoft.com/oldnewthing/20090805-01)

August 5, 2009

Raymond Chen

Security researcher Ross Anderson gives a talk on [how a search engine can be used to shed light on the various evils that lurk on the Web](#). It starts off slow, but picks up when he gets to the “Can you spot the scam?” game that he plays with each Web site. (If you’re in a hurry, skip ahead to a little past the 20 minute mark.)
