

Why does the Zune HD have the message “For our Princess” on the inside of the case, and why is she a princess?

Inside the Zune HD case is engraved the message *For our Princess*.

The message is a tribute to an administrative assistant on the Zune team who passed away during development of the project.

She gained the nickname *Princess* from a group she worked in before joining the Zune team. Another administrative assistant on the team dubbed herself *Queen of Everything*. In response, she became the *Princess of Everything Else*.
