The Cyber Shafarat – Treadstone 71

Cognitive Warfare

<u>Feb 27, 2023</u>

In some, closed jurisdictions have developed very effective ways to impose and maintain persistent forms of "informational dominance" to gain the upper hand in digital penetration wars. In some closed regimes, authoritarian leaders ensure that their preferred narrative dominates public perceptions by dominating the media, censoring and silencing independent voices, and eliminating political dissent. Coercion and judicial injunctions are created, resulting in a nationally coordinated filter bubble in which the government decides what information its…

Prigozhin Speaks Q&A

Feb 22, 2023

#1258 We publish a request from journalist Ekaterina Lushnikova and the answer:
Hello,According to the US government, about 30,000 fighters have died in the ranks of the Wagner PMC since the beginning of the JMD.How could you comment on this information, is it true?If not, how many dead and wounded in the ranks of the PMC "Wagner" really?How

many were shot or beaten with a sledgehammer for treason and desertion? https://cybershafarat.com/2023/02/22/lack-of-artillery-shells-determines-squabbles-and-capabilities-prigozhin-wagner/ We publish the commentary…

Lack of artillery shells determines squabbles and capabilities #Prigozhin #Wagner

Feb 22, 2023

The conflict between Shoigu and Yevgeny Prigozhin only confirms that the situation with artillery ammunition near the ROV is getting worse and worse every day. At the same time, they leak information about deliveries and short deliveries in quite detail to assess this situation ... the Marine Corps reported that PMC "Wagner", in the Bakhmut area, from February 18 to 20 received 1660 rockets, 10171 shells for cannon artillery and mortars and 980 rounds for…

Artificial Intelligence RADAR-IQ surveillance

Artificial intelligence on guard of Russian borders Radar-IQ

Feb 20, 2023

Russian programmers have created the first and so far the only security system in the world that works with the help of a neural network. According to the idea of the creators of the system, HD-cameras will stand on the border with Ukraine and, in a matter of seconds, calculate the drones of the Armed Forces of Ukraine and saboteurs.
https://cybershafarat.com/2023/02/20/osint-and-darknet-risk-reduction-through-opsec/
According to the developers, Radar-IQ is not afraid of extreme and disgusting weather, works…

Tallow for Tor

Jan 13, 2024
REQRYPT WINDIVERT TALLOW DONATE Tallow: Transparent Tor for Windows Tallow is a transparent Tor firewall and proxying solution for Windows. In a nutshell, when you run Tallow: All traffic from your PC is transparently diverted through the Tor anonymity network. Programs do not need to be configured to use Tor. All non-Tor related traffic such as UDP is blocked. This includes DNS-traffic to help mitigate leaks. Tallow is similar to running Tor as a transparent proxy under Linux or MacOSX. Tallow has several…

"ATESH" monitors the bays and coastal waters of Sevastopol

Jan 13, 2024

Our agents continuously monitor the Black Sea Fleet of the Russian Navy, tracking the movements of ships in coastal areas and various bays of Sevastopol. We know about the deployment in the Southern and Northern bays of a base minesweeper of Project 12700, 2 hovercraft of Project 1239 of the Bora type, and a frigate of Project 1135. Also, the occupiers placed 3 more ships at the ship repair yard. All data was long ago…
